Career Objectives

To build a strong career in software development by applying my knowledge of programming, problem-solving, and web development in a professional environment. I am eager to learn industry-level technologies, contribute to real-world projects, and continuously improve my technical and communication skills while growing as a software engineer.

Education

University Of Asia Pacific (UAP), Dhaka, Bangladesh

B.Sc. Eng. in Computer Science and Engineering | January 2023 - running

CGPA: **3.57** out of 4.00

Key Courses: Computer Basics and Programming, Object Oriented Programming, Discrete Mathematics, Data Structures, Algorithm Analysis & Design, Database Systems, Software Engineering, Operating Systems, Compiler Design, Computer Networks, Machine Learning

Engineering University School & College, BUET, Dhaka

Higher Secondary Certificate | Science | 2021

GPA: 5.00 out of 5.00

Darunnazat Siddikia Kamil Madrasah, Dhaka

Dakhil | Science | 2019

GPA: 5.00 out of 5.00

Research Interests

Machine Learning, Deep Learning, Image Processing, Computer Vision

Awards & Certifications

- Dean's Award, 3rd Year 1st Semester
- Dean's Award, 3rd Year 2nd Semester
- Vice Chancellor's Award, 4th Year 1st Semester
- Runner Up, Roboexpo 3.0, UAP Robotics Club

Technical Skills

Programming Language: C, C++, C#, Python, Java, Swift

Web Based: PHP, Laravel

Version Control: Git

Operating Systems: Windows, Ubuntu (Basics)

Artificial Intelligence: Machine Learning, Deep Learning, NLP

Hardware: Arduino

Others: OpenCV, OpenGL

Thesis & Projects

Thesis Project

A Hybrid AI Framework for Real-Time Student Attention Analysis and Pedagogical Recommendation

The Voice Bridge (Web Development Project)

Technology: Python, Django, HTML, CSS, SQLite **IDE:** PyCharm

A civic issue reporting platform with user authentication, polls, commenting, anonymous posting, and issue status tracking features.

Student Score Prediction System (*Machine Learning Project*)**Technology:** Python, Scikit-learn, Pandas, Streamlit **IDE:** Visual Studio Code

A machine learning system developed to predict student academic performance with data analysis and visualization features.

Cartzilla (*eCommerce Web Project*)**Technology:** Python, HTML, CSS, JavaScript, Bootstrap **IDE:** PyCharm

A shooting game where the player shoots boxes to earn points.

ExpenseTap (*Personal Finance Management System*)**Technology:** Next.js, React, TypeScript, Tailwind CSS, SQLite/PostgreSQL

A modern personal finance management web application featuring income and expense tracking, bank/cash/mobile wallet account management, analytics dashboard, recurring transactions, PDF reports, budget monitoring, and responsive design.

MediTrack (*Smart Medicine Reminder & Prescription Manager*)**Technology:** Next.js, React, TypeScript, OCR, SQLite/PostgreSQL

A healthcare web application that helps users manage medicines with prescription scanning, smart reminders, dosage schedules, medicine inventory tracking, refill notifications, treatment progress monitoring, and PDF prescription management.

TaskFlow (*Productivity & Task Management System*)**Technology:** Next.js, React, TypeScript, Tailwind CSS

A productivity platform with task scheduling, calendar integration, priority management, Pomodoro timer, reminders, notes, daily routine planner, progress tracking, motivational quotes, and responsive dashboard.

Experience**Founder**

T-Retro | Current

An online t-shirt business handling product design, sourcing, marketing, and order fulfillment through social media-driven sales.

Leadership Skills

- General Secretary, Cyber Security Club of CSE, UAP (February 2026 – Present)
- Team Leader, Web Development & Machine Learning Projects (2024 – Present)
- Organizer, Industrial Tour 2026, CSE, UAP
- Organizer, Departmental Iftar, CSE Department, 2025
- Volunteer, Cyber Security Club, University of Asia Pacific
- Volunteer, Robotics Club, University of Asia Pacific

Language Skills

- **Bengali:** Native Language
- **English:** Proficient
